

MONTAGEANLEITUNG / ASSEMBLING

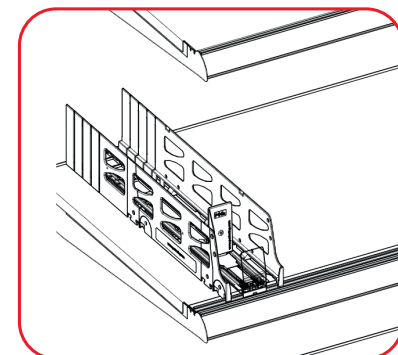

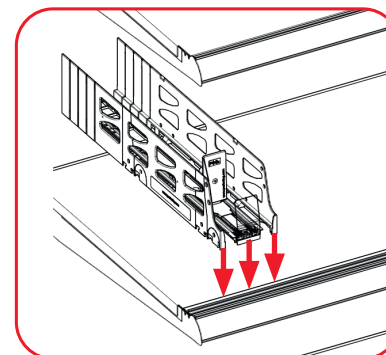

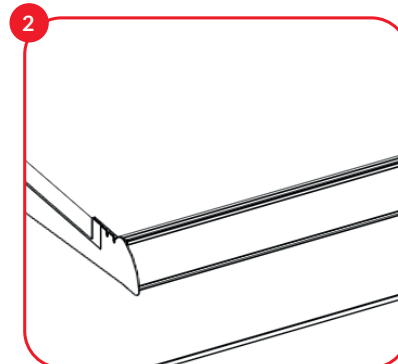

POS-T SUPERVARIO

Variabel in Breite und Tiefe / Variable in width and depth

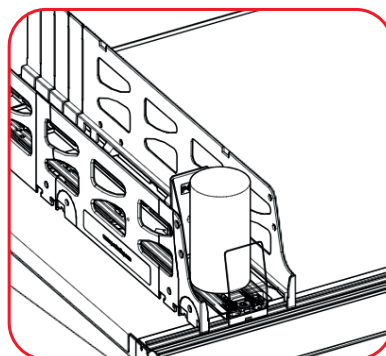

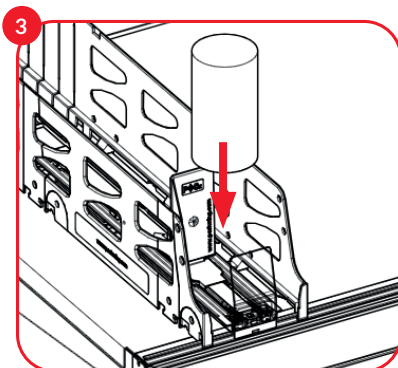

Anpassen der Länge an Regaltiefe: Endstopp bis zur gewünschten Stelle nach vorne drücken, perforierte Segmente an der Sollbruchstelle bis zur gewünschten Länge abbrechen.

Adjusting the length to the shelf depth: Push the end stop forward to the desired position, then break off the perforated segments at the predetermined breaking points to the required length.

Adapter-T Profil auf dem Regalboden anbringen und den ersten SuperVario-Kanal auf das Adapter-T Profil klipsen.

Attach the adapter-T profile to the shelf base and clip the first SuperVario channel onto the adapter-T profile.

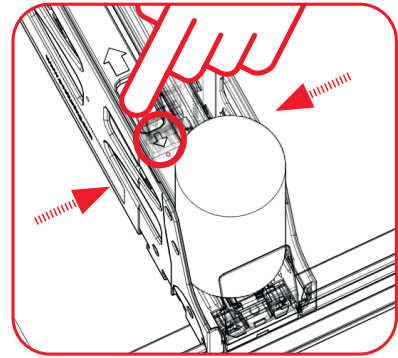

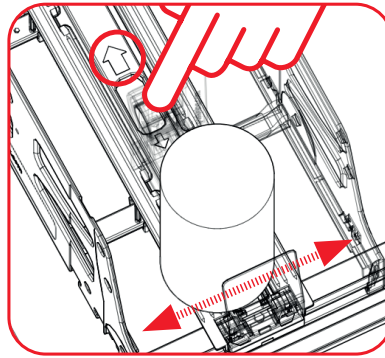

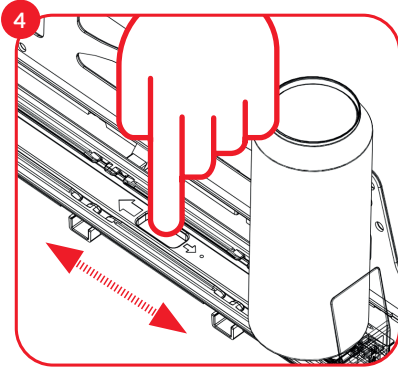

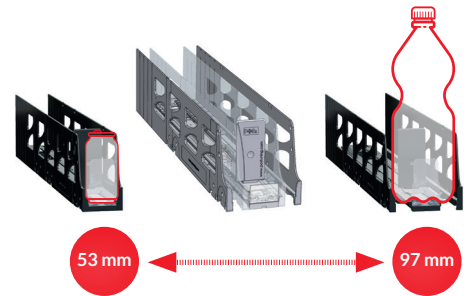

Produkt in den Kanal einsetzen.

Insert the product into the channel.

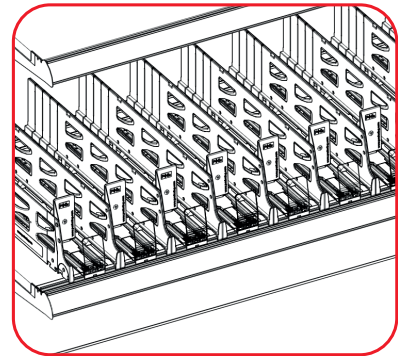

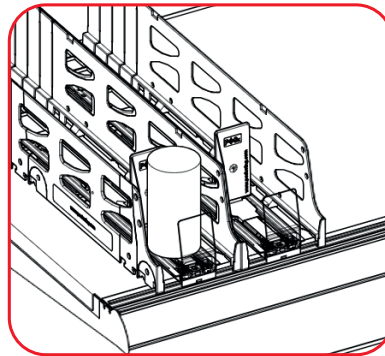

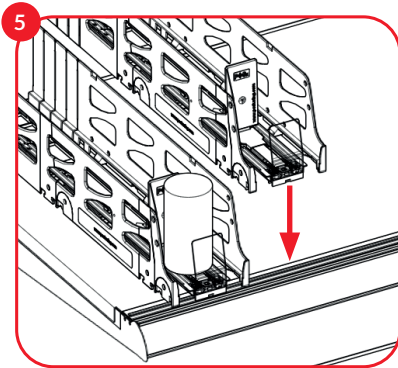

MONTAGEANLEITUNG / ASSEMBLING

POS-T SUPERVARIO

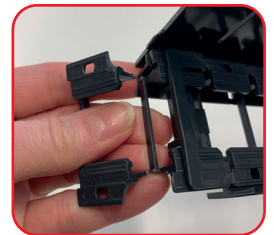

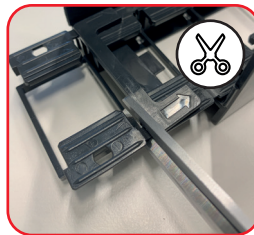

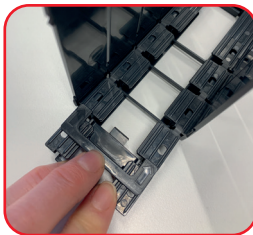

Variabel in Breite und Tiefe / Variable in width and depth

Einstellen der Kanalbreite: Regler mit einem Finger nach hinten (← breiter) oder nach vorne (→ schmaler) schieben.
Adjust the channel width by sliding the regulator with one finger – outwards (← wider) or inwards (→ narrower).

Ablauf wiederholen, bis der Boden vollständig montiert ist.
Repeat the process until the shelf base is fully assembled.

Kürzen Sie den Kanal auf die gewünschte Regaltiefe, indem Sie die perforierten Segmente an der Sollbruchstelle abbrechen.
Bei Bedarf mit einer Schere durchtrennen.
Shorten the channel to the desired shelf depth by breaking off the perforated segments at the breaking points. Cut with scissors if needed.
